

Get this awesome Electric Bicycle at: www.urbanscooters.com

The XB-500 Scooter comes with Smart Charger, Tool Kit and 4 12 Volt Batteries

If you want an electric bike that is extremely sleek and stylish then the X-Treme XB -- 500 is the electric bike for you. This bike operates on 100% electric power but it also can be ridden like a regular bike or it can also be ridden just like a normal bike. This bike has a lot of power and it can take medium-size hills because it has a 500 watt motor which can carry you up to 18 mi. an hour and has a range of about 19 mi. on single charge. One of the most attractive features of this electric bike is that it is very similar to electric moped but the price does not reflect that fact. This electric bicycle is not categorized as a moped and therefore you do not need to have a driver's license to operate it in most states. The XB-500 electric bicycle is easy on the environment does not make any noise and runs on just a few cents a day.

You can get this fantastic electric bike from www.urbanscooters.com. If you order it from urban scooters you can have this incredible bicycle sent to your front door for approximately \$70.
